- 9:15 a.m. Adjournment

As the subcommittee time is limited, two model resolutions will be discussed at the Task Force meeting in detail versus being introduced at the subcommittee level first. The two resolutions are the *Resolution on U.S. Conference of Mayors Climate Protection Agreement Accountability* and the *Resolution Urging Passage of the Regulations from the Executive In Need of Scrutiny (REINS) Act*.

ALEC

AMERICAN LEGISLATIVE EXCHANGE COUNCIL

**Energy, Environment, and Agriculture Task Force Meeting
ALEC's 2011 States & the Nation Policy Summit
Scottsdale, Arizona
December 2, 2011
Meeting Minutes**

Meeting began at 2:00 pm.

The meeting was called to order by Task Force Co-Chairmen Rep. David Wolkins of Indiana and Michael McGarey of the Nuclear Energy Institute, who filled in for Martin Shultz of Brownstein Hyatt Farber Schreck.

Todd Myers of the Washington Policy Center presented on his new book, *Eco-Fads: How the Rise of Trendy Environmentalism is Harming the Environment*

The Task Force adopted the resolution introduced by Kyle Rodgers of the American Gas Association, *Resolution on Responsible Resource Development*

Leonard Gianessi presented on the importance of herbicides for sustainable agriculture.

The Task Force adopted *Resolution Requesting that the Federal Government Confer and Consult with the States on Management of Public Lands and Energy Resources.*

The Task Force adopted the *Disposal and Taxation of Public Lands Act.*

Robert Ferguson of the Science and Public Policy Institute spoke on threats to the U.S. power grid and implications for public policy.

The Task Force adopted the *Resolution in Support of Modernizing the Federal Toxic Substances Control Act of 1976.*

The Task Force adopted the *Resolution in Support of the Keystone XL Pipeline.*

Steve Pociask of the American Consumer Institute presented on a new report regarding economic facts and consumer opinions about expanding domestic energy production.

The Task Force adopted the *Disclosure of Hydraulic Fracturing Fluid Composition Act.*

The meeting adjourned at 5:00 pm.

Resolution Urging Quick Congressional Action on the Recommendations of The Blue Ribbon Commission on America's Nuclear Future

Whereas, nuclear utility ratepayers throughout the United States have contributed more than \$30 billion in fees and interest, as required under the Nuclear Waste Policy Act (NWPA) of 1982, for the sole purpose of removing used nuclear fuel from commercial reactor sites and defense-related high-level radioactive waste from Department of Defense facilities, and

Whereas, the federal government failed to satisfy the statutory requirements of the NWPA to begin accepting used fuel for disposal starting in 1998 and, indeed, has continued to fail to meet the terms of its contracts with U.S. nuclear plant operators, and

Whereas, the 104 operating U.S. commercial reactors have accumulated some 77,000 metric tons of used nuclear fuel, and

Whereas, the Obama Administration has terminated and Congress has ceased funding of all activities related to the license review or further development of a permanent central disposal repository at the Yucca Mountain site in Nevada, which has been the federal government's only intended destination for used fuel and defense-related waste, and

Whereas, the States of South Carolina and Washington, various communities and other parties remain involved in lawsuits attempting to compel the federal government to meet its obligations under the NWPA, and

Whereas, the President in January, 2010, appointed a Blue Ribbon Commission on America's Nuclear Future comprised of distinguished American scientists and nuclear policymakers to review various alternative options and make recommendations for future safe management of U.S. commercial used nuclear fuel and defense waste, and

Whereas, The Blue Ribbon Commission has recommended an integrated nuclear fuel management program incorporating: 1) Development of one or more Nuclear Regulatory Commission-licensed private or government-owned centralized interim storage facilities in communities in states that would willingly host such facilities; 2) Continued public and private sector research, development and deployment of used fuel and nuclear waste recycling technologies to close the nuclear fuel cycle in a safe, environmentally responsible, proliferation-resistant and economically viable process; and 3) Assured access by the nuclear waste program to revenues generated by consumers' continued payments and to existing balances in the Nuclear Waste Fund: and

Whereas, These recommendations from the Blue Ribbon Commission align closely with long-standing policy adopted and endorsed by the American Legislative Exchange Council,

Resolved

Now therefore let it be Resolved that the American Legislative Exchange Council encourages State Legislatures to urge the Obama Administration and the U.S. Congress:

1. To adopt legislation enabling the construction of one or more centralized interim fuel storage facilities through directives to the U.S. Department of Energy and through incentives to interested communities funded through access to the accumulated Nuclear Waste Fund.
2. To recognize there are willing host communities and states that are ready to voluntarily accept used fuel and defense waste shipments.
3. To assure access by the Nuclear Waste Management program to the revenues generated by consumers' continuing fee payments and to the significant balance in the Nuclear Waste Fund.
4. To enable one or more NRC-licensed private interim storage facilities to meet this long-ignored public policy need.

Resolution on U.S. Conference of Mayors Climate Protection Agreement Accountability

Whereas, in 2005, the United States Conference of Mayors Climate Protection Agreement was created to encourage cities to reduce carbon emissions.

Whereas, the announcement of the Agreement says “supporting mayors pledge to reduce carbon dioxide emissions by 7 percent below 1990 levels by 2012” the levels included in the Kyoto Protocol.

Whereas, emissions in the United States were 7 percent higher in 2009 than 1990. Whereas, only nine states achieved the carbon reductions called for in the Kyoto Protocol.

Whereas, major cities, including Seattle which initiated the Climate Protection Agreement, have failed to meet the Kyoto targets.

Whereas, more than 1,000 cities across the country signed the agreement.

Whereas, the Agreement calls upon cities to “Inventory global warming emissions in City operations and in the community.”

Whereas, the Agreement says the cities’ ability to meet the targets will indicate that the United States should commit itself to significant carbon emissions reductions.

Be it resolved that the cities within the state of _____ which are signatories to the US Conference of Mayors Climate Protection Agreement:

1. Provide evidence by the end of 2012 whether they have achieved the goals outlined in the Agreement, or if they failed to do so.
2. Report the results to the US Conference of Mayors for compilation in a final assessment of the results of the Agreement.
3. Cities that have failed to achieve the target will remove themselves as signatories to the Climate Protection Agreement.
