Did you know?

Nearly 680,000 voting age citizens are not on the rolls.

That's like ALL of Boston being unable to vote!

Senator
24 Beacon St.
Room #
Boston, MA 02133

Automatic Voter Registration would make sure each of us can make our voices heard.

Dear Senator,

Please support Automatic Voter Registration! AVR will modernize our voter registration process, eliminate unnecessary bureaucracy, create voter rolls that are more accurate and secure, and could save our taxpayers money in the long run. It's a commonsense solution that's been passed in thirteen states already. Let's become #14!

At a time when trust has been shaken in our election systems, AVR can restore confidence that our voter rolls are securely and accurately maintained, while also ensuring that eligible Massachusetts residents have the opportunity to participate.

Please support AVR when it comes to a vote on the Senate floor!

Thank you,
