

Clean Conscience Pledge

Given the need to further strengthen our state's ethics laws and to create better public trust in New York State government, I, as a New York state legislator, pledge to support, vote for, and work zealously to sign into law legislation that:

- limits outside income for legislators so we can focus on constituent needs,
- limits the ability of special interests to contribute unlimited amounts of money to all candidates for state office by closing the LLC loophole, and
- identifies the purpose for, and recipients of, all state funds allocated to be spent at the discretion of legislators and the governor to increase transparency and eliminate conflicts of interest.
