Personalized, original comments are the most effective way to convince the FEC to take action. Here are some talking points, but please make your comment your own!

- We deserve to know who is paying for ads online, with online disclaimers, in real-time.
- Revised transparency rules should reflect how we communicate and see advertising in the 21st Century, which is increasingly online.
- Social media companies like Facebook and Twitter say that they are taking voluntary steps to provide this information to their users - but we need the FEC to provide regulations that can actually be enforced.
