

June 30, 2020

The Honorable Gina M. Raimondo  
Governor of Rhode Island  
State House  
82 Smith Street  
Providence, RI 02906

Dear Governor Raimondo:

On behalf of the Voting Access Coalition, an alliance of more than 15 organizations in the state promoting the exercise of the franchise and fairness in elections, we thank you for issuing Executive Orders 20-11 and 20-27 that facilitated the delay of the April 28th Presidential Preference Primary (PPP) to June 2nd, and allowed it to be conducted primarily by mail. Recently our groups supported legislation drafted by the Secretary of State, titled the Safe and Healthy Voting in 2020 Act, that, if enacted, would have made the necessary statutory changes to allow the September Statewide Primary and November General Election to also be primarily vote by mail. We are deeply disappointed that the Rhode Island General Assembly abdicated its duty to the voters of the State of Rhode Island by failing to take up the legislation in its recently concluded session.

In response to that inaction, and in recognition of the fact that some key deadlines are fast approaching if the state is to adequately address issues in time for the September 8th statewide primary, we write today to ask you to take a few essential executive measures in order to move to a primarily vote by mail election. We believe that such initiative on your part is necessary because even if legislators were to return in a few weeks to take up the bill, it will be too late to attend to certain specific matters that have imminent deadlines for action.

Specifically, we urge you to issue an executive order that would make two changes for the fall. First, we ask you to waive the statutory requirement of two witness signatures or a notary signature on the voted mail ballot as you did for June 2nd. The waiving of the requirement for witnesses or a notary must be done now to allow the Secretary of State enough time to order the mail ballot envelopes with the proper instructions for September. We also ask you to extend the deadline for the Board of Elections to tabulate mail ballots so long as they are postmarked by election day, or received through the mail the day after the election, knowing that more than 2,000 voters were disenfranchised during the PPP by the early deadline.

As we mentioned, there are other critical changes that need to be made as well. Today we wrote to Secretary of State Nellie Gorbea and urged her to send applications for mail ballots to all registered voters at least 45 days prior to the September 8th Statewide Primary as proposed in the legislation. We believe that she does not need legislative authorization, nor an executive order, to take this important step to safeguard the health of voters and preserve access to the ballot.

We have also sent a letter to the Rhode Island Board of Elections urging them to centralize the process for qualifying mail ballots. The lack of centralization proved to be a bottleneck during the recent PPP, and we believe contributed to many voters receiving their ballots without enough time to return them by postal mail before the election night deadline and some voters not receiving their ballots at all. Without the Board of Elections assuming that responsibility, we believe the boards of canvassers will be overwhelmed by mail ballot applications.

Time is running out for the voters of Rhode Island. Around the country we are seeing state legislatures, governors, secretaries of state, boards of elections, and in the last resort, courts, make needed changes to prepare for the fall elections. We urge you to show leadership in this time of crisis and commit to making the necessary changes by executive order to protect the vote and preserve the health of Rhode Islanders.

We also ask you to join with us in supporting the asks we have made of the Board of Elections and Secretary of State to promote a fair, equitable and safe election season. In light of the urgency of the situation, we hope to hear back from you as soon as possible about these matters. Members of our Coalition would be happy to talk with you further about them.

Sincerely,

John Marion  
Common Cause Rhode Island  
Executive Director
